In response to the final Office Action mailed November 5, 2002, please amend the application as follows:

In the Claims

Please substitute the claim set in the appendix entitled "Clean Version of Pending Claims" for the previously pending claim set. Specific amendments to individual claims are detailed in the following marked-up set of claims.

Please amend the claims as follows:

1. (Amended) A method to prepare isolated mammalian epidermal stem cells, comprising:
 - (a) providing [separating in] a sample comprising [a population of] mammalian epidermal stem cells, which sample is contacted with an agent that binds DNA in viable cells and an agent that binds non-viable cells;
 - (b) separating the sample into a first population of cells that are the smallest 30% of the cells in the sample [comprising epidermal stem cells from at least one] and a second population of cells that are larger than the cells in the first population, wherein the first population comprises a substantially pure population of epidermal stem cells [does not comprise epidermal stem cells]; and
 - [(b)] (c) isolating a substantially pure population of epidermal stem cells from the first population of epidermal stem cells.
